

Nursing.
It's real. It's life.

A great start.

Here's one nursing career that's really up and running. Aurora Hernandez is a Nursing student in the BSN completions program at Georgetown University who also was the President of the National Student Nurses' Association. A child of migrant farm workers, Aurora believes that Nurses with backgrounds such as hers can play an important role in overcoming difficulties like language barriers, mistrust and discrimination. Can you make a similar difference? Visit us at: www.nursesource.org
